

For more than 55 years, Superior Essex has been a leader in the design, manufacture and supply of communications wire and cable products. Since we started as a copper telephone cable manufacturer, we have steadily expanded our product offerings to include optical fiber cable, copper data cable and a host of related products for the telecom and datacom marketplace.

In 2008, Superior Essex joined the family of companies owned by LS, one of the largest manufacturing corporations in Korea, with businesses centered in the energy, communications, plastics, fabrication and automotive industries and manufacturing facilities located around the world. In 2009, our total corporate revenues exceeded \$10 billion.

OUR EXPERIENCE IN FTTP HARDWARE

The new Superior Essex FTTP hardware product line is based on the widely-deployed LS FTTP product portfolio, modified for U.S. and Canadian customer needs. These products are in service in many of the fastest growing FTTP markets in the world and make up the leading product line in South Korea, which has the highest FTTX subscriber penetration rates in the world.

Our reference list of FTTP hardware customers includes many of the largest broadband service providers in 15 countries, including: Korea Telecom, SK Broadband, LG Dacom and others.

Why Consider Superior Essex FTTP Products?

EXCEPTIONAL PRODUCT QUALITY

When examining the Superior Essex FTTP hardware products, the first thing you will notice is its exceptional design quality. The entire portfolio has been engineered to exceed durability and ruggedness of competitor products, and includes an extended 10-year warranty on every closure and cabinet product. The Superior Essex FTTP product line advantages are many, and may be found on the product specification pages. Here are a few highlights:

- » Guaranteed to meet 100% of GR-771-CORE industry requirements for closures and cabinets
- » Tested to exceed twice the GR-771-CORE standard for impact, compression and vertical drop in extreme heat and cold-weather
- » Extended 10-year product warranty on all closures and cabinet products
- » Designed to accommodate Superior Essex fiber cable designs, plus other standard fiber cable products
- » Easy entry and access to closures, with hinged splice trays for splicing convenience

DESIGNED BY EXPERTS IN OUTSIDE PLANT INFRASTRUCTURE

Our company is founded on the Outside Plant (OSP) infrastructure. This heritage translates into product designs that leverage our field experience in OSP product applications and fiber cable installations. Each FTTP product is made to outperform in the real-world, with functionality that provides ease of use and expedites installations.

TECHNICAL SUPPORT IS A TOP PRIORITY

Technical support is another key advantage of doing business with Superior Essex. We employ the best application engineers and support personnel in the industry to ensure that our customers have smooth installations and that all questions or issues are resolved quickly. The old adage – time is money – is truer than ever, and our commitment to providing superior service is one of the many ways we have built our strong reputation over decades.
